

CHANGING THE WAY YOU GET THERE

90 Bridge Street, Westbrook, Maine 04092

MPG310

Easy Reach™ Wheel Step

Mounting The Wheel Step

To use, simply unfold the unit and position over the top of the tire as shown (1).

Note: If the wheel well obstructs mounting, turn the Easy Reach™ sideways; place over the side of the tire and rotate until the unit is positioned over the top of the tire as shown (1).

The step should be kept dry and clean to avoid slippery conditions. Caution should be used when mounting and dismounting.

Adjusting For Tire Size

To increase or decrease the tire size adjustment, push in the gold buttons (2) while pulling in or pushing out the end piece. The buttons will automatically find the next adjustment holes.

Adjusting The Step Height

To raise or lower the step, remove the bolts & plastic knobs (3). Reposition the step to the desired height hole locations (4). Reinsert the bolts & plastic knobs and hand tighten (5).
